

## PALM OIL

Palm oil is largely used as cooking oil and in domestic/industrial frying. The oil is high in Olefins, a valuable chemical group that can be processed into many non-food products also. The different grades include CP-6, CP-8 and CP-10 for the different needs of the consumers.

## PACKING

We are supplying in different packaging sizes including:

- 1Ltr, 2Ltr, 3Ltr and 5Ltr PET bottles.
- 20Ltr and 25Ltr Jerry cans.
- 21MT Flexi Tanks.
